IBM has been a strategic partner having a long, proven, track record of collaborating to deliver successful outcomes. What's more, we won the prestigious 2017 IBM Beacon Award in recognition of our innovative, omnichannel experience. Infosys is the first global systems integrator to join IBM's new public cloud ecosystem. Leveraging Infosys' deep expertise, The first is that the experience layer is becoming multidevice and multisense; where a person's experience is no longer limited to a single device. Microsoft continues to focus on bringing their technology and products together into experiences and solutions. The Oracle Cloud offers a complete suite of integrated applications for Sales, Service, Marketing, Human Resources, and Finance. Infosys and Oracle have forged a strong alliance with a vision to help customers maximize benefits, increase productivity, and reduce costs. Joe Fuster, Vice President, Oracle for CX Cloud, endorses Infosys innovation and differentiated solutions for CX. As cyber threats are on the rise and evolving at a rapid pace, it is fundamental and extremely critical to protect your data. With the new world of perimeter-less business culture CXOs are challenged to provide secured information and ensure data privacy. As part of our endeavor to constantly alleviate our customer's security posture and accelerate secured digital transformation, Salesforce is a leader in the cloud integration services space. Their execution services include architecture, implementation, and integration. Their capabilities in this space emanate from numerous Salesforce-certified consultants, expertise in vertical industries, and a deep understanding of business processes. Infosys is an SAP Global Strategic Partner, one of the highest-level services partners of SAP. Infosys and SAP have a long history of collaboration. Infosys has taken a step ahead and developed technology-specific solutions such as its Live Enterprise Suite. Infosys is one amongst the first three strategic partners to help customers achieve true process transformation. We work in close partnership with SAP to design and develop innovative new solutions across multiple industries. Infosys is a charter partner of the SAP Enterprise Architecture Community, which is a collaborative, cross-industry forum. Infosys has been offering valuable services on Run SAP Methodology – a proven methodology to optimize SAP implementations. Infosys is certified partner of SAP for SAP S/4HANA.

ServiceNow was founded in 2004 on a revolutionary idea to transform how work gets done across the enterprise. Today, enterprises need to evolve faster, but lack of process and legacy tools hold them back. Every day, enterprises are faced with unstructured work patterns. With the ServiceNow System of Action, you can replace these unstructured work patterns of the past with a structured, efficient, and scalable system. Infosys Enterprise Service Management Café is an AI-powered plug and play solution that provides all the capabilities of ServiceNow. It consolidates and rationalizes the tools you already have and helps in predicting service outages, automating workflows, and improving user satisfaction. The outcomes are significant such as 30 percent improvements in user satisfaction along with 25 percent reduction in costs. Snowflake delivers the Data Cloud – a global network where thousands of organizations mobilize data with a single, seamless experience. Wherever data or users live, Snowflake delivers a single and seamless experience across multiple public clouds.

Access to primary healthcare, awareness of basic hygiene, and treatment of underprivileged patients began in 1996. The Foundation's association with Sankara Netralaya aims to provide financial aid to the economically weaker sections of society. Watch video

Joining hands with the Swami Vivekananda Integrated Rural Health Centre (SVIRHC), the Foundation has been providing medical aid to the underprivileged. Watch video

The National Institute of Mental Health and Neuro Sciences (NIMHANS) is an innovative institution offering a wide range of services to the community. The Infosys Foundation has been made aware of forms of fraudulent correspondence/ potential scams claiming to be from NIMHANS.

Infosys Leadership Institute (ILI) is committed to helping leaders assume greater roles and positively influence the world. Infosys Leadership Blueprint is our common point of reference, and knits the four key dimensions i.e. Inspire, Develop, Empower and Enable. We deploy a host of tools to help our leaders become better aware of their leadership potential. Infosys Leadership Institute works towards facilitating an ecosystem that helps leaders invest in their own growth.

Helping enterprises lead the generative revolution across digital, human and ethical dimensions
Generative AI will reinvent business, technology and people. But to lead in this new era, one must mould the future. Infosys Generative AI Labs, part of Infosys Topaz, makes this possible by bringing together ready-to-use innovations. Reimagine digital enterprise with ready-to-use industry solutions and accelerators

By embedding generative AI into enterprise systems and applications, businesses can make big leaps. With early investments, strong partnerships and mature offerings, Infosys can enable businesses to alter the future. Redefine human capability by empowering people to coexist and cocreate

Infosys' belief has long been that humans spot problems while machines solve them. With generative AI, we can Reinforce AI ethics and derisk using responsible design frameworks

Even as generative AI creates breakthrough opportunities, it must be adopted with ethical considerations. Responsible by design as part of derisk is a key tenet to Infosys' applied AI approach. With a comprehensive framework, Breakthrough innovation will come from weaving generative AI across the technology stack, augmenting enterprise capabilities. about Infosys Topaz at infosystopaz.com.
