Dassault Systèmes and Infosys understand that successful software deployment across large enterprises requires a strategic approach.

Dassault Systèmes and Infosys have a "Strategic Alliance" program that enables coordinated efforts to realize the full potential of 3D.

Databricks is the Data + AI company. With origins in academia and the open-source community, the company has built a leading platform for big data and machine learning.

Today, more than five thousand organizations worldwide rely on Databricks to enable massive-scale data science and machine learning.

Headquartered in San Francisco with offices around the world and hundreds of global partners, Databricks is a leading provider of data and AI solutions.

Infosys and Databricks share a strategic business partnership, which enables us to provide significant benefits to our customers.

Dell Technologies ? the largest, privately controlled, technology firm ?helps organizations and individuals build their digital future.

We partner together to build respected best-of-breed business solutions, leveraging technology, delivered by a global network of experts.

Infosys is a Dell Technologies Cloud Services provider - Titanium Partner, one of the highest-level services providers in the cloud services ecosystem.

You can count on Infosys and Dell Technologies to deliver the solutions you need for your business needs.

HP is a leading, global enterprise that offers IT, products, solutions, and services for diverse markets worldwide.

End user computing devices: HP offers for enterprise customers a wide range of the world's most reliable, secure, and cost-effective devices.

For more information, visit HP website: <http://www.hp.com/>

Managed print services: HP offers a range of dependable, secure, and cost-effective printers to meet the business needs of organizations of all sizes.

For more information, visit HP website: <http://www8.hp.com/us/en/services/mps.html>

Retail Point Of Sale: By delivering convenient and consistent service that customers expect, HP Retail Point Of Sale solutions help retailers increase sales and reduce costs.

For more information, visit HP website: <http://www8.hp.com/us/en/retail-solutions/overview.html>

Infosys and Hewlett Packard Enterprise (HPE) have been strategic partners for more than 20 years. Together, they deliver innovative solutions for customers.

Infosys has been recognized by Hewlett Packard Enterprise (HPE) as the HPE System Integrator of the Year for multiple years.

IBM is a premier cognitive and cloud platform company with its presence in over 170 countries. Infosys, as a global systems integrator, is a leading partner in IBM's ecosystem.

For more information, visit IBM's website: <https://www.ibm.com/us-en/>

IBM has been a strategic partner having a long, proven, track record of collaborating to deliver successful outcomes for customers.

What's more, we won the prestigious 2017 IBM Beacon Award in recognition of our innovative, omnichannel, and customer-centric approach.

Infosys is the first global systems integrator to join IBM's new public cloud ecosystem. Leveraging Infosys' expertise in cloud, we are helping customers transform their business.

Microsoft (Nasdaq ?MSFT? @microsoft) is the leading platform and productivity company for the mobile-first world.

The first is that the experience layer is becoming multidevice and multisense; where a person's experience is no longer limited to a single device or sense.

Microsoft continues to focus on bringing their technology and products together into experiences and solutions that drive business value.

The Oracle Cloud offers a complete suite of integrated applications for Sales, Service, Marketing, Human Resources, and Finance.

Infosys and Oracle have forged a strong alliance with a vision to help customers maximize benefits, increase productivity, and reduce costs.

Joe Fuster, Vice President, Oracle for CX Cloud, endorses Infosys innovation and differentiated solutions for CX.

As cyber threats are on the rise and evolving at a rapid pace, it is fundamental and extremely critical to protect your data.

With the new world of perimeter-less business culture CXOs are challenged to provide secured information and protect their data.

As part of our endeavor to constantly alleviate our customer's security posture and accelerate secured digital transformation.

Salesforce is a leader in the cloud integration services space. Their execution services include architecture, implementation, and integration.

Their capabilities in this space emanate from numerous Salesforce-certified consultants, expertise in vertical industries, and a deep understanding of the Salesforce ecosystem.

Infosys is an SAP Global Strategic Services Partner, one of the highest-level services partners of SAP. Infosys has been a partner of SAP for over 20 years.

Infosys has taken a step ahead and developed technology-specific solutions such as its Live Enterprise Suite, which is a cloud-based solution for SAP.

Infosys is one amongst the first three strategic partners to help customers achieve true process transformation with SAP.

We work in close partnership with SAP to design and develop innovative new solutions across multiple industries and geographies.

Infosys is a charter partner of the SAP Enterprise Services Architecture Community, which is a collaborative community of SAP partners.

Infosys has been offering valuable services on Run SAP Methodology ? a proven methodology to optimize SAP operations and reduce costs.

Infosys is certified partner of SAP for ?

ServiceNow was founded in 2004 on a revolutionary idea to transform how work gets done across the enterprise.

Today, enterprises need to evolve faster, but lack of process and legacy tools hold them back. Every day, thousands of employees are stuck in a cycle of inefficiency.

With the ServiceNow System of Action?, you can replace these unstructured work patterns of the past with a structured, efficient, and scalable system.

Infosys Enterprise Service Management Café is an AI-powered plug and play solution that provides all the tools and services you need to manage your enterprise.

It consolidates and rationalizes the tools you already have and helps in predicting service outages, automating repetitive tasks, and improving service quality.

The outcomes are significant such as 30 percent improvements in user satisfaction along with 25 percent reduction in service outages.

Snowflake delivers the Data Cloud ? a global network where thousands of organizations mobilize data with a single, unified interface.

Wherever data or users live, Snowflake delivers a single and seamless experience across multiple public clouds.

Infosys is a global SI partner with Snowflake and together we have enabled multiple large enterprises migr

About Us

Infosys is a global leader in next-generation digital services and consulting. We enable clients in more than 100 countries.

In 1981, seven engineers started Infosys Limited with just US\$250. From the beginning, the company was driven by innovation.

Infosys has a growing global presence with over 300,000 employees. Globally, we have operations spread across 60+ countries.

At Infosys, we believe our responsibilities extend beyond business. That is why we established the Infosys Foundation in 1995.
